

GFL AI DEAL ANALYSER

31 Negril Estate

Westmoreland, Jamaica

USD \$345,000

MLS# 98220 | Coldwell Banker Jamaica Realty

VERDICT: AMBER

Proceed to due diligence with conditions

Strong location | Competitive pricing | Critical title & survey verification required

Strategy	STR / Villa Rental + Medium-Term Hold
Listing Agent	Tracey Ann Mair, Coldwell Banker Jamaica Realty
Property Type	New-build detached villa (stone facade, metal roof)
Beds / Baths	Not yet confirmed — assume 3 bed / 2 bath (verify)
Floor Size	Not yet confirmed — assume 1,400–1,800 sq ft (verify)
All-In Acquisition Cost	~USD \$381,000 (incl. furnishing)
Base-Case NOI	~USD \$18,500 p.a. (STR, no pool)
Net Yield (base)	~5.4% on purchase price
Recommended Offer	USD \$315,000 (subject to survey and clear title)
Analysis Date	9 June 2026
Reference	JAM-WES-0609-001

This report is produced for investment evaluation purposes only. It does not constitute legal, tax, mortgage, planning, or surveying advice. Instruct a qualified Jamaican attorney, chartered surveyor, and accountant before proceeding. All financial projections are estimates based on assumed data and must be independently verified.

1. EXECUTIVE SUMMARY

A newly constructed single-storey villa in Negril Estate, Westmoreland, listed at USD \$345,000 through Coldwell Banker Jamaica Realty (MLS# 98220). Negril is Jamaica's premier tourism destination, generating consistent short-term rental (STR) and villa rental demand driven by North American and European leisure travellers. At this price point the deal sits in the mid-upper tier for the area and merits serious evaluation as a STR/villa rental hold or a medium-term capital appreciation play. Critical data — floor size, lot dimensions, bed/bath count, title status, utilities connection, and construction completion status — are not yet confirmed and represent the primary due diligence risk. The deal is rated AMBER: the location and pricing are strong, but a Green cannot be issued until title is verified, an independent structural survey is passed, and specification is confirmed. Pool addition (est. USD \$30,000–\$40,000) is strongly recommended and would materially improve all income scenarios.

2. PROPERTY OVERVIEW

Address	31 Negril Estate, Westmoreland, Jamaica
MLS#	98220
Listing Price	USD \$345,000
Property Type	Detached residential villa (new build)
Construction	Stone/block facade, dark metal roof, single storey
Completion Status	Near-complete / recently completed — VERIFY snagging & certificate
Beds / Baths	NOT CONFIRMED — assume 3 bed / 2 bath pending Details tab
Floor Size	NOT CONFIRMED — assume 1,400–1,800 sq ft pending verification
Lot Size	NOT CONFIRMED — to verify from title / surveyor's report
Pool	NOT CONFIRMED — to verify (material impact on STR yield)
Tenure / Title	NOT CONFIRMED — registered title verification CRITICAL
Listing Agent	Tracey Ann Mair, Coldwell Banker Jamaica Realty
Agent Contact	C: (876) 439-2565 F: (876) 946-0007 CB Jamaica

ASSUMPTION FLAG: Bed/bath count, floor area, lot size, pool and title are assumed. All financial projections must be re-run once confirmed.

3. AREA AND DEMAND SUMMARY

Negril, Westmoreland is Jamaica's top leisure tourism destination, anchored by the Seven Mile Beach and the West End Cliffs. It draws a consistent mix of North American and European tourists year-round, with peak season running November–April.

High STR / villa rental demand	Negril is one of the most searched Jamaica destinations on Airbnb, VRBO, and specialist villa platforms.
USD-denominated market	Protects against JMD depreciation; strong alignment with US tourist spend.
Growing villa development	Boutique hotel and villa development is active across the Negril corridor.
Air access	Sangster International Airport (Montego Bay) ~90 minutes; Norman Manley (Kingston) is further.
Negril Estate	Established residential subdivision within the Negril corridor with good road access.

Demand Risks

- Hurricane season exposure (June–November) — Westmoreland is on Jamaica's south-west coast, partially sheltered but not immune.
- Tourism is cyclical and vulnerable to airline disruption and macro shocks (COVID demonstrated the severity of impact on villa income).
- Potential STR oversupply in peak Negril periods — requires active monitoring of platform competitor inventory.

Comparable Market Context (Conservative Estimates)

New-build villas in Negril Estate and surrounding areas: USD \$280,000–\$550,000+ depending on size, pool, and finish. USD \$345,000 for a new build is within range but requires floor size confirmation to assess per-sq-ft value. Resale liquidity: moderate — the Negril villa market is active but not as liquid as Kingston residential.

4. STRATEGY STACK ANALYSIS

Strategy	Viability	Notes
STR / Villa Rental	HIGH	Primary strategy — Negril's core demand driver. Strong nightly rates, proven platforms (Airbnb, VRBO, Luxury Retreats, Island Getaways).
Medium-term Hold + Appreciation	MEDIUM-HIGH	USD-denominated asset; Negril values have tracked upward historically. 3–7 year hold recommended.
Operator Lease	MEDIUM	Could be leased to a villa management company — reduces management burden, reduces headline income.
Flip / Resale	MEDIUM	Possible after 2–3 years appreciation; market liquidity moderate — not an immediate flip play.
Corporate / Executive Let	LOW-MEDIUM	Limited corporate demand in Negril vs Kingston; not optimal for this location.
Long-term Residential Let	LOW	Rental yield likely poor vs STR potential; underutilises the asset's tourism location.
Tourism Accommodation Licence	REQUIRED	Must obtain TPDCo licence for legal STR operation before first booking.
Development / Subdivision	N/A	Single completed villa on residential lot — not applicable.
Care / Supported Living	N/A	Incompatible with Jamaica market context.

Recommended primary strategy: STR / Villa Rental with medium-term hold. Pool addition strongly recommended to maximise nightly rate and occupancy.

5. FINANCIAL ANALYSIS

All figures are conservative estimates based on assumed 3-bed / 2-bath, ~1,600 sq ft, no pool confirmed. Re-run once Details tab is confirmed.

A. Acquisition Costs

Purchase price	USD \$345,000
Jamaican attorney fees (~2.5%)	USD \$8,625
Stamp duty / registration (~1.5%)	USD \$5,175
Surveyor's ID report	USD \$750
NLA title search	USD \$300
Pre-purchase structural survey	USD \$1,000
Furnishing / fit-out (STR ready)	USD \$20,000 – \$30,000
TOTAL ALL-IN (mid furnish)	USD ~\$381,000

B. STR Revenue Projection (No Pool Assumed)

Metric	Conservative	Base Case	Optimistic
Nightly rate (USD)	\$180	\$220	\$280
Occupancy	45%	55%	65%
Occupied nights/year	164	201	237
Gross Revenue	\$29,520	\$44,220	\$66,360
Platform fees (15%)	(\$4,428)	(\$6,633)	(\$9,954)
Net Platform Revenue	\$25,092	\$37,587	\$56,406

C. Annual Operating Costs

Property management (20% of net revenue)	USD \$5,000 – \$11,300
Utilities (electricity, water, internet)	USD \$4,800
Maintenance & repairs allowance (1% of value)	USD \$3,450
Property tax (Jamaica — estimated)	USD \$1,200
TPDCo / tourism accommodation licence	USD \$500
Insurance (property + liability)	USD \$3,500
Accounting / compliance	USD \$1,000
TOTAL OPERATING COSTS	~USD \$19,450 – \$25,731

D. Net Operating Income Summary

Scenario	Gross Revenue	Total Costs	NOI	Net Yield
Conservative	\$29,520	\$24,468	\$5,052	1.5%
Base Case	\$44,220	\$25,731	\$18,489	5.4%
Optimistic	\$66,360	\$29,000	\$37,360	10.8%

Conservative scenario is weak — driven by low occupancy without a pool. Adding a pool (est. USD \$25,000–\$40,000) could push nightly rates to USD \$280–\$400 and materially improve all scenarios.

E. Capital Appreciation Scenario (5-Year Hold)

Appreciation Rate	Value at Year 5	Capital Gain	Total Return (Base NOI + CG)
2% p.a.	\$381,000	\$36,000	\$128,445
4% p.a. (central case)	\$420,000	\$75,000	\$167,445
6% p.a.	\$462,000	\$117,000	\$209,445

F. Price Per Square Foot Sensitivity

Assumed Floor Size	Price / sq ft	Market Range (Negril new build)
1,200 sq ft	\$288 / sq ft	Mid-market — reasonable
1,500 sq ft	\$230 / sq ft	Good value
1,800 sq ft	\$192 / sq ft	Strong value

Market range for Negril new builds: approximately USD \$180–\$320 / sq ft. At 1,400–1,600 sq ft the asking price is competitive.

6. RISK REGISTER

Risk	Likelihood	Impact	Mitigation
Unregistered / defective title	Medium	CRITICAL	NLA title search and attorney review before any deposit payment
Construction defects (new build)	Medium	High	Independent structural survey and snagging inspection before completion
Construction not fully complete at listing	Medium	High	Verify snagging list and completion certificate from Parish Council
No pool — lower STR competitiveness	Medium	Medium	Assess cost of adding pool post-purchase; budget USD \$30,000–\$40,000
Hurricane / weather damage	Medium	High	Comprehensive insurance essential; confirm flood zone classification
STR oversupply in Negril	Medium	Medium	Track Airbnb data; differentiate through quality management and design
Currency risk (USD income, GBP reporting)	Low-Medium	Medium	USD-denominated deal limits JMD exposure; monitor GBP/USD rate
Management quality / remote ownership	Medium	Medium	Vet local management company before purchase; require monthly reporting
TPDCo licensing delays	Low	Medium	Factor 3–6 month timeline into STR launch schedule
NEPA / planning non-compliance (new build)	Low-Medium	High	Obtain copies of all planning approvals and NEPA environmental sign-off
Market liquidity on resale	Medium	Medium	Negril villa market is active but not deep — minimum 3–5 year hold horizon

7. COMPLIANCE AND DUE DILIGENCE FLAGS

CRITICAL — Resolve Before Any Deposit
■ Obtain Volume/Folio reference and confirm registered title with National Land Agency (NLA)
■ Instruct Jamaican attorney to conduct full 30-year title search
■ Confirm seller's ownership — no encumbrances, caveats, or mortgages
■ Obtain approved building plans and completion certificate from Westmoreland Parish Council
■ Confirm NEPA environmental clearance for new build
HIGH PRIORITY — Before Exchange
■ Commission independent structural survey from a local chartered surveyor
■ Conduct snagging inspection — document all incomplete or defective works
■ Obtain NLA / government land valuation for transfer tax purposes
■ Obtain surveyor's identification report confirming lot boundaries match title
■ Confirm road access status (private vs NWA-maintained public road)
■ Confirm live utility connections: NWC (water), JPS (electricity), internet provider
■ Confirm property tax compliance — no arrears outstanding
■ Confirm HOA / estate covenants and annual maintenance obligations for Negril Estate
OPERATIONAL — Before First Booking

- Apply for TPDCo tourism accommodation licence (allow 3–6 months)
- Register for Taxpayer Registration Number (TRN) for rental income declaration in Jamaica
- Onboard to STR platforms: Airbnb, VRBO, Luxury Retreats, specialist Jamaica villa sites
- Appoint and contract local property management company
- Obtain comprehensive insurance: hurricane, property, contents, and STR liability

PROFESSIONAL ADVICE REQUIRED

- Jamaican attorney — title search, transfer, and legal completion
- UK / Jamaica accountant — rental income tax treatment, double tax treaty, HMRC reporting
- Local chartered surveyor — structural survey and identification report
- Insurance broker (Jamaica-specialist) — property, hurricane, and STR liability cover

8. OFFER PRICE GUIDANCE

Scenario	Offer	Rationale
Title clear, construction complete, pool confirmed	USD \$320,000 – \$330,000	4–7% below ask — justifiable on unverified finish and furnishing cost
Title clear, no pool, minor snagging	USD \$300,000 – \$315,000	Pool adds ~\$30,000 cost to buyer; re-price accordingly
Any title defect or incomplete construction	DO NOT OFFER	Resolve title / construction first — material deal-breaker in Jamaica
Pool confirmed + strong rental history / income evidence	USD \$335,000 – \$345,000	Closer to ask justified if STR income data supports yield

Opening Offer Recommendation: **USD \$315,000** — subject to independent survey clean and title confirmed clear. Escalate to USD \$330,000 if pool is confirmed and survey passes.

9. BEST EXIT STRATEGY

STR / Villa Rental — Medium-Term Hold (3–7 Years)

Operate as a fully managed short-term rental targeting North American and European tourists via Airbnb, VRBO, and a specialist Jamaica villa company. Engage a Negril-based property management company at 18–22% of gross revenue. Target base-case NOI of USD \$18,000–\$22,000 per annum once established and fully operational.

Hold for 3–7 years. In a normalised Negril market with modest appreciation (4% p.a.), the asset should reach USD \$420,000–\$450,000 at resale, delivering a total return of approximately USD \$130,000–\$180,000 above all-in acquisition cost (before UK tax). Engage UK accountant to manage double tax treaty position between Jamaica and UK.

Pool addition is strongly recommended — budget USD \$30,000–\$40,000. Expected to increase nightly rates by 40–60% and occupancy by 5–10 percentage points. This single improvement could upgrade the deal verdict from AMBER to GREEN.

10. BACKUP EXIT STRATEGY

Operator Lease / Villa Management Lease

If active STR management proves difficult to manage remotely, lease the villa to a Negril villa operator (e.g., Island Getaways, specialist Jamaica villa companies) on a guaranteed rent or revenue-share arrangement. Typical terms: operator takes

35–45% of gross revenue in exchange for full management, marketing, and maintenance. Lower yield but significantly lower management burden for a remote owner.

Secondary Backup: Hold and Resale

Exit at Year 3 if NOI underperforms or Negril market strengthens ahead of projections, capturing capital appreciation as the primary return.

11. RED / AMBER / GREEN VERDICT

VERDICT: AMBER

Proceed to Due Diligence with Conditions

Strong location | Competitive pricing for new build | Critical verification items outstanding

Factor	Status	Notes
Location	STRONG	Negril is the right market for STR villa investment
Asking Price	REASONABLE	Competitive for a new build, subject to floor size confirmation
New Build Quality	UNVERIFIED	Independent structural survey required before exchange
Title	UNVERIFIED	CRITICAL — NLA title search and attorney review essential
STR Income Potential	GOOD	Base case viable; materially improved with pool addition
Utilities / Road Access	UNVERIFIED	JPS, NWC, and internet connections to be confirmed live
Planning / NEPA Compliance	UNVERIFIED	Building plans and NEPA clearance to be obtained
Construction Completion	UNVERIFIED	Site appears undressed in listing photos — verify status

Issue GREEN once: title is clean, planning approvals confirmed, independent survey passed, utilities live, and floor size / specification confirmed. Issue RED if: title is defective or unregistered without a clear path to registration, or structural survey reveals material defects.

12. NEXT ACTION CHECKLIST

Immediate — This Week

■ Request Details tab data from agent: beds, baths, floor size, lot size, title Vol/Folio, pool Y/N

■ Request copies of: title, approved building plans, completion certificate, NEPA sign-off

■ Instruct Jamaican attorney to commence NLA title search immediately

■ Request agent confirm utility connections: JPS (electricity), NWC (water), internet

■ Obtain comparables data from agent (Comparables tab on MLS listing)

Within 2 Weeks

■ Instruct independent structural survey and snagging inspection

■ Obtain surveyor's identification report confirming lot boundaries vs title

■ Obtain 2–3 quotes from Negril property management companies

■ Obtain insurance quote: hurricane, property, contents, STR liability

- Run STR market research: Airbnb / VRBO comparable Negril 3-bed listings (with and without pool)
- Assess cost of adding a pool post-purchase — obtain quote from local contractor

Before Exchange

- Confirm government land valuation for transfer tax calculation
- Confirm HOA / estate covenants and annual maintenance fees for Negril Estate
- Confirm TRN registration process for rental income reporting in Jamaica
- Confirm TPDCo licensing timeline and documentation requirements
- Brief UK accountant on Jamaica rental income — double tax treaty and HMRC reporting obligations
- Confirm completion and snagging sign-off — all defective works resolved before funds transfer

This report is produced for investment evaluation purposes only and does not constitute legal, tax, mortgage, planning, or professional surveying advice. All financial projections are estimates based on assumed data and must be independently verified. Instruct a qualified Jamaican attorney, chartered surveyor, and accountant before proceeding with any transaction.
