UPDATED ANALYSIS — Asking Price Confirmed

9 Hibiscus Way

Seville, St. Ann's Bay, St. Ann, Jamaica

JMD \$54,500,000

USD ~\$351,613

GBP £446,548

MLS# 100907 | 6 Bed / 6 Bath | 4 Apartments | 4,245 sq ft | 0.30 acres | Listed 22 Apr 2026 | DOM: 48

VERDICT: AMBER

Proceed to Due Diligence with Conditions

STR mix yield of ~12% gross is compelling | Unknown build date and planning compliance are key risks

Offer GBP £232,000 – £245,000 | Subject to structural survey and clear title

Property	Split-level, 4 apartments (2× 2-bed/2-bath + 2× 1-bed/1-bath)
MLS# / Agent	100907 Tracey Ann Mair, Coldwell Banker Jamaica Realty
Confirmed Price	JMD \$54,500,000 USD ~\$351,613 GBP ~£446,548
Price per sq ft	~USD \$83 / sq ft (market range: \$70–\$120 for JA multi-family)
Exchange rates used	155 JMD/USD 1.27 USD/GBP ~122 JMD/GBP
LTL gross yield	~5.2% (USD) — marginal as standalone
STR mix gross yield	~12.2% (USD) — 2× LTL 2-beds + 2× STR 1-beds
STR mix net yield	~7.0% (USD) — after all operating costs
Best Strategy	Multi-family BTL + convert upper 1-beds to STR (ocean views)
Recommended Offer	GBP £232,000–£245,000 / JMD ~\$50.5M–\$53.3M
Year Built	NOT STATED — structural survey non-negotiable
Ref / Date	JAM-STA-0609-002v2 9 June 2026

This report is for investment evaluation only. It does not constitute legal, tax, mortgage, planning, or surveying advice. All projections are estimates and must be independently verified. Instruct a qualified Jamaican attorney, chartered surveyor, and accountant before proceeding.

1. EXECUTIVE SUMMARY

9 Hibiscus Way, Seville is a 4,245 sq ft split-level house in an established St. Ann subdivision, listed at JMD \$54,500,000 (USD ~\$351,613 / GBP ~£446,548) and already configured as four income-producing apartments. The confirmed price equates to ~USD \$83/sq ft — within the acceptable range for Jamaica multi-family stock. On a long-term let (LTL) only basis, the gross USD yield is a marginal 5.2%, driven by JMD-denominated rents and currency conversion friction. However, converting the two upper-level 1-bed units (ocean views, 10-min walk to sea, 20-min from Ocho Rios) to short-term rental (STR) via Airbnb/VRBO transforms the return profile to approximately 12.2% gross and 7.0% net in USD — a compelling outcome for a Jamaican multi-family asset. The deal remains AMBER pending title verification, structural survey (year of build not stated), and confirmation of planning approval for the 4-unit conversion. With 48 DOM and those open diligence items, a 5–10% discount from asking is reasonable and justified.

2. PROPERTY OVERVIEW

Address	9 Hibiscus Way, Seville, St. Ann's Bay, St. Ann, Jamaica
MLS# / Lot#	100907 Lot 84, Block N/A, Seville Subdivision
Listing Agent	Tracey Ann Mair Coldwell Banker Jamaica Realty (876) 439-2565
Listed / Updated	22 Apr 2026 Confirmed GBP price: 28 May 2026 DOM: 48
Confirmed Price	JMD \$54,500,000 = USD ~\$351,613 = GBP ~£446,548
Style	Split-level house
Beds / Baths	6 bedrooms / 6 bathrooms (across 4 self-contained apartments)
Unit Mix	2× 2-bed/2-bath (ensuite) + 2× 1-bed/1-bath
Additional Spaces	Laundry room, helper's quarters, storeroom, utility space, large garage
Floor Area	4,245 sq ft total
Lot Size	12,887 sq ft (0.2958 acres)
Year Built	NOT STATED — structural survey essential before exchange
EPC / Condition	Jamaica has no EPC regime; condition to be confirmed by survey
Furnishing	Unfurnished — furnishing budget required for all units
Views	Ocean views from upper level
Road Access	Paved road North coast highway community
Proximity	5 min St. Ann's Bay town 20 min Ocho Rios 10 min walk to sea
Region	Middlesex, St. Ann Post code: St. Ann's Bay
Sale Type	For Sale Status: Active
Price note	Original MLS entry shows GBP £1,877 — likely a data entry error in system; confirmed price GBP £259,007

3. AREA AND DEMAND SUMMARY

St. Ann's Bay, St. Ann is the parish capital on Jamaica's north coast. It sits between Ocho Rios (20 min east) and Runaway Bay (15 min west). The town services a mixed economy of local professional and public sector workers, north coast tourism spillover, and a growing retirement demographic. Seville is an established residential subdivision with paved road access.

Residential demand	Steady from healthcare workers (St. Ann's Bay Hospital), teachers, public sector, and north coast business employees.
Tourism spillover	Ocho Rios (20 min) is Jamaica's #2 tourism hub — STR guests seeking quieter stays within reach of Ocho Rios activities.
Ocean views / access	Upper-level sea views and 10-min walk to sea are strong STR marketing differentiators.
Infrastructure	Paved road, north coast highway, easy access to all St. Ann amenities.
Senior market	Listing flags 'seniors oriented' — aligns with boutique senior accommodation opportunity.

Market Risks

- Secondary rental market — JMD residential rents are lower than Kingston, MoBay, or Ocho Rios town.
- STR demand tied to Ocho Rios tourism proximity — not a standalone beach resort destination.
- JMD rental income creates USD/GBP currency exposure — exchange rate movements affect real returns.
- Unknown build year — potential for hidden maintenance liability if older construction.
- Apartment conversion compliance unknown — planning risk if unauthorised modification.

4. STRATEGY STACK ANALYSIS

Strategy	Viability	Notes
Multi-family BTL (LTL)	HIGH	4 units already configured. Immediate income base. Stable but modest USD yield.
Partial STR Conversion	HIGH	Convert 2× upper 1-bed units to STR — ocean views, Ocho Rios proximity. 3–5× yield uplift per unit vs LTL.
Mixed LTL + STR	HIGH	Optimal: 2× 2-bed on LTL for stable income, 2× 1-bed on STR for USD yield. Best risk-adjusted return.
BRRRR	MEDIUM	Refurb to higher spec → higher rents → refinance locally (JMD rate ~10–12%) or remortgage UK asset. Medium-term play.
Add Units (Development)	MEDIUM	~8,600 sq ft undeveloped on 0.30-acre lot. Scope for 1–2 studios/1-beds with planning consent. Increases exit value.
Senior / Assisted Living	MEDIUM	Boutique senior accommodation — growing Jamaica market, 'seniors oriented' area. Needs MoH licensing and change of use.
Operator Lease	LOW-MEDIUM	Lease to housing/hospitality operator — reduces income but eliminates management burden for remote owner.
Flip / Resale	LOW-MEDIUM	St. Ann's Bay thin resale market. Only viable after hold and capital improvement.
Single-family reconversion	LOW	Destroys 4× income streams — not recommended.

Optimal strategy: 2× 2-bed on long-term residential let + 2× upper 1-bed on STR. Mixed model delivers best risk-adjusted USD yield and income diversification.

5. FINANCIAL ANALYSIS

All figures use confirmed price of JMD \$54,500,000 (USD ~\$351,613 / GBP ~£446,548). Exchange rates: 155 JMD/USD, 1.27 USD/GBP (~122 JMD/GBP). Re-run if actual rates diverge by >5%.

A. Acquisition Costs

Purchase price	JMD \$54,500,000 = USD \$351,613 = GBP £446,548
Attorney fees (~2.5%)	USD \$8,790 GBP £11,164
Stamp duty / registration (~1.5%)	USD \$5,274 GBP £6,698

Surveyor's ID report	USD \$750
NLA title search	USD \$300
Structural survey	USD \$1,500 (unknown build year — full survey required)
Furnishing — 4 units	USD \$20,000 – \$28,000 (LTL basic + 2× STR higher spec)
TOTAL ALL-IN (mid furnish)	~USD \$389,677 ~GBP £483,410

Transfer Tax (2%) is paid by the SELLER in Jamaica. Buyer bears attorney, stamp duty, registration, and survey costs.

B. Long-Term Let Income — All 4 Units (JMD)

Unit	Conservative	Base Case	Optimistic
2× 2-bed/2-bath (each)	JMD \$70,000/mo	JMD \$85,000/mo	JMD \$100,000/mo
2× 1-bed/1-bath (each)	JMD \$38,000/mo	JMD \$47,000/mo	JMD \$58,000/mo
Gross/month (all 4)	JMD \$216,000	JMD \$264,000	JMD \$316,000
Annual gross	JMD \$2,592,000	JMD \$3,168,000	JMD \$3,792,000
At 90% occupancy	JMD \$2,332,800	JMD \$2,851,200	JMD \$3,412,800
USD equivalent	~\$15,050	~\$18,395	~\$22,018
GBP equivalent	~£11,871	~£14,500	~£17,339
Gross yield (USD)	4.3%	5.2%	6.3%

C. STR Income — Upper 1-Bed Units (2 Units, USD)

2× upper-level 1-bed units (ocean views, 10-min walk to sea). Target market: Ocho Rios corridor tourists seeking quieter, lower-cost base.

Metric	Conservative	Base Case	Optimistic
Nightly rate (USD)	\$75	\$100	\$130
Occupancy	40%	50%	60%
Nights/year (per unit)	146	183	219
Gross per unit	\$10,950	\$18,300	\$28,470
2 units combined	\$21,900	\$36,600	\$56,940
Less: platform fees (15%)	(\$3,285)	(\$5,490)	(\$8,541)
Net STR revenue	\$18,615	\$31,110	\$48,399

D. Recommended Mixed Strategy — 2× LTL 2-Beds + 2× STR 1-Beds

Income Component	Annual (USD)	Annual (GBP)	Notes
2× LTL 2-bed (JMD \$85k/mo, 90% occ)	\$11,845	£9,327	Stable, local tenant income
2× STR 1-bed (net of platform 15%)	\$31,110	£24,496	USD income, Ocho Rios tourism market
TOTAL BLENDED INCOME	\$42,955	£33,823	
Gross yield on USD price (\$351,613)	12.2%	—	

E. Annual Operating Costs — Mixed Strategy

Property management (20% of total gross)	USD \$8,591
--	-------------

Maintenance & repairs (2% — unknown build year)	USD \$7,032
Property tax (Jamaica — estimated)	USD \$1,500
Insurance (multi-unit + STR liability)	USD \$3,000
Utilities (common areas only)	USD \$800
Accounting / compliance / TPDCo	USD \$1,000
TOTAL ANNUAL COSTS	USD \$21,923

F. Net Operating Income — Mixed Strategy (Base Case)

Item	Annual (USD)	Annual (GBP)	Yield on Price
Gross blended income	\$42,955	£33,823	12.2%
Total operating costs	(\$21,923)	(£17,262)	—
NET OPERATING INCOME	\$21,032	£16,561	6.0%

Net yield of 6.0% in USD on the mixed LTL/STR strategy is a solid return for a Jamaican multi-family asset. This compares favourably to the LTL-only net yield of ~1–2% in USD.

G. Capital Appreciation — 5-Year Hold Scenarios

Appreciation Rate	Value at Year 5	Capital Gain (USD)	Total Return (5yr NOI + CG)
2% p.a.	\$388,209	\$36,596	\$141,756
4% p.a. (central case)	\$427,791	\$76,178	\$181,337
6% p.a.	\$470,537	\$118,924	\$224,084

H. Strategy Yield Comparison at Confirmed Price

Strategy	Gross USD Yield	Est. Net USD Yield	Recommendation
LTL only (all 4 units)	5.2%	~1–2%	Too low in USD — viable in JMD only
STR only (all 4 units)	~20%+	~12%	Operational intensity — not recommended
Mixed LTL + STR (optimal)	12.2%	6.0%	RECOMMENDED

6. RISK REGISTER

Risk	Likelihood	Impact	Mitigation
Unknown year of build — hidden structural liability	HIGH	HIGH	Independent structural survey non-negotiable before exchange
Apartment conversion without planning permission	MEDIUM	HIGH	Obtain St. Ann Parish Council building approval for 4-unit residential conversion
Unregistered or defective title	MEDIUM	CRITICAL	NLA title search and 30-year attorney search before any deposit
JMD currency risk — rents in JMD, USD/GBP costs	HIGH	MEDIUM	STR income in USD mitigates; consider USD rental agreements for LTL 2-beds where possible
STR occupancy risk — secondary location	MEDIUM	MEDIUM	Differentiate via views and Ocho Rios proximity; vet management company carefully
Maintenance cost uncertainty (unknown build age)	MEDIUM	MEDIUM	Budget 2% of purchase price p.a. until survey confirms condition

Informal occupants — helper's quarters / garage	LOW-MEDIUM	MEDIUM	Confirm vacant possession across all spaces before contracts
Remote management quality	MEDIUM	MEDIUM	Appoint vetted local manager; monthly financial reporting required
Hurricane / weather damage	MEDIUM	HIGH	Multi-unit insurance with hurricane cover essential
Development planning risk (additional units)	LOW-MEDIUM	LOW	Any new units require St. Ann Parish Council consent and NEPA review
Resale liquidity — St. Ann's Bay secondary market	MEDIUM	MEDIUM	Hold 3–5 years minimum; not a liquid market
MLS data error — original price GBP £1,877	LOW	LOW	Likely system entry error; confirmed price GBP £259,007 as of 28 May 2026 — verify with agent

7. COMPLIANCE AND DUE DILIGENCE FLAGS

CRITICAL — Resolve Before Any Deposit

- Obtain Volume/Folio reference and confirm registered title with National Land Agency (NLA)
- Instruct Jamaican attorney to conduct full 30-year title search — confirm no caveats, encumbrances, or mortgages
- Obtain building permits and planning approval from St. Ann Parish Council for 4-unit residential conversion
- Confirm NEPA environmental clearance — especially if any development or change of use is planned

HIGH PRIORITY — Before Exchange

- Commission independent structural survey — year of build unknown; full survey non-negotiable
- Obtain surveyor's identification report confirming lot boundaries vs title (Lot 84, Seville)
- Confirm NLA / government land valuation for transfer tax calculation
- Confirm all 4 apartments have live JPS (electricity) and NWC (water) connections
- Confirm existing tenancy status — occupied or vacant? If tenanted, obtain all lease agreements
- Confirm helper's quarters, storeroom, and garage — vacant possession required
- Confirm property tax compliance — no arrears on Lot 84
- Confirm Seville subdivision covenants, HOA obligations, and any maintenance fees

OPERATIONAL — Before Renting / STR Launch

- Register Taxpayer Registration Number (TRN) for rental income reporting in Jamaica
- Apply for TPDCo tourism accommodation licence for STR units (allow 3–6 months)
- Appoint and contract local property management company (St. Ann's Bay / Ocho Rios based)
- Obtain multi-unit insurance: property, hurricane, contents, STR liability
- Furnish LTL units to residential standard; STR units to higher hospitality spec
- STR units: onboard to Airbnb, VRBO; consider specialist Jamaica STR management

PROFESSIONAL ADVICE REQUIRED

- Jamaican attorney — title search, transfer, legal completion
- UK / Jamaica accountant — JMD/GBP rental income, double tax treaty, HMRC reporting
- Local chartered surveyor — structural survey, ID report, independent valuation

- Insurance broker (Jamaica-specialist) — multi-unit, hurricane, STR liability
- Planning consultant — if developing additional units or converting to senior accommodation

8. OFFER PRICE GUIDANCE

Scenario	Offer Guidance	Rationale
Title clear, survey clean, planning compliant	GBP £232,000 – £245,000 JMD ~\$50.5M – \$53.3M	10–5% below ask. Justified on unknown build year, furnishing cost, and planning uncertainty.
Title clear but survey reveals minor defects	GBP £215,000 – £228,000 JMD ~\$46.7M – \$49.6M	Price in remedial cost of survey defects. Get contractor quotes before revising offer.
Any title defect or planning non-compliance	DO NOT OFFER	Resolve title / planning first — material deal-breaker under Jamaican law.
All clear + existing rental income evidence	Up to GBP £245,000 JMD ~\$53.3M	DOM 48 still gives leverage; maximum offer if income history confirms projections.

Opening Offer: **GBP £232,000 (JMD ~\$50.5M)** — 10.4% below asking price. Escalate to **GBP £245,000** if survey is clean and planning compliance confirmed. 48 DOM and unknown build year justify a firm negotiating position.

9. BEST EXIT STRATEGY

Mixed LTL / STR — Medium-Term Hold (3–7 Years)

Retain the 2× 2-bed/2-bath apartments on long-term residential lets at JMD \$85,000/month each, targeting St. Ann's Bay professionals and north coast workers for stable JMD income. Convert the 2× upper-level 1-bed/1-bath units (ocean views) to short-term rental via Airbnb and VRBO, targeting the Ocho Rios tourist corridor at USD \$100/night and 50% occupancy. Appoint a local property management company at 18–20% of gross revenue. Base-case blended income: ~USD \$42,897 gross p.a., ~USD \$24,613 net p.a. (~7.0% net yield). Hold 3–7 years. At 4% p.a. appreciation, asset reaches ~USD \$427,791 at Year 5, yielding a combined NOI + capital gain of ~USD \$199,242 (before UK tax). Use hold period to obtain planning consent for 1–2 additional units on the lot.

10. BACKUP EXIT STRATEGY

Operator Lease — Full Management

Lease the entire building to a Jamaica housing or STR operator on a guaranteed rent or revenue-share basis. Operator takes 35–45% of gross income; owner receives passive net income with zero management involvement. Best suited if remote management proves problematic.

Secondary: Boutique Senior Accommodation

Convert to a licensed boutique senior/assisted living facility targeting Jamaica's growing retirement market. The 4-unit layout, 6 bathrooms, garden area, quiet environment, ocean proximity, and 'seniors oriented' listing tag all support this use. Requires Ministry of Health licensing, change of use planning consent, and a specialist operator partner — longer lead time but potentially higher-value exit and recurring income.

11. RED / AMBER / GREEN VERDICT

VERDICT: AMBER

Proceed to Due Diligence — Negotiate on Price

Confirmed price: JMD \$54,500,000 / GBP £446,548 / USD ~\$351,613

Mixed LTL+STR strategy yields ~7% net USD — compelling | Unknown build date and planning compliance are key residual risks

Factor	Status / Finding
Confirmed Price	GBP £259,007 / USD ~\$351,600 confirmed
Price per sq ft	~\$83/sq ft — acceptable for JA multi-family
STR Mix Gross Yield	~12.2% USD — STRONG
STR Mix Net Yield	~7.0% USD — GOOD
LTL-only USD Yield	~5.2% gross, ~1-2% net — MARGINAL
Location / Access	STRONG — north coast, Ocho Rios proximity, sea views
Multi-income configuration	STRONG — 4 units ready
Year of Build	UNKNOWN — survey risk premium applies
Title	UNVERIFIED — NLA search critical
Planning Compliance	UNVERIFIED — conversion permits to confirm
DOM 48	POSITIVE — negotiating leverage
Utilities	LIKELY OK — established subdivision; confirm
MLS Price Data Error	NOTE — original price field anomaly; confirmed price verified

Path to GREEN: title clean, structural survey passed, planning compliance on 4-unit conversion confirmed. Path to RED: title defective without resolution, or structural survey reveals major defects exceeding GBP £15,000 in remediation cost.

12. NEXT ACTION CHECKLIST

Immediate — This Week

■

Contact Tracey Ann Mair (876) 439-2565 to confirm asking price and any recent offers

■

Request: title Volume/Folio, building permits for 4-unit conversion, planning approvals from St. Ann Parish Council

■

Request: year of build, any available structural reports or maintenance history

■

Request: current occupancy status and any existing tenancy agreements

■

Instruct Jamaican attorney to commence NLA title search on Lot 84, Seville, St. Ann

■

Request Seville subdivision HOA documents and covenant details

Within 2 Weeks

■

Commission independent structural survey — unknown build year makes this the highest-priority spend

■

Obtain surveyor's identification report — confirm lot boundaries vs title (Lot 84)

■

Obtain 3× comparable LTL rents for 2-bed in St. Ann's Bay and 1-bed in Seville / Ocho Rios corridor

■

Obtain 3× comparable STR rates (Airbnb/VRBO) for 1-bed with ocean view near St. Ann's Bay

■

Shortlist 2 local property management companies (St. Ann's Bay / Ocho Rios based)

■

Obtain multi-unit insurance quote: property, hurricane, liability

- Confirm NLA government land valuation for transfer tax purposes

Before Exchange

- Confirm all 4 apartments have live JPS and NWC connections
- Confirm property tax compliance — no arrears on Lot 84
- Confirm vacant possession across all spaces: apartments, helper's quarters, garage, storeroom
- Brief UK accountant: JMD/GBP rental income, double tax treaty, HMRC reporting obligations
- Confirm TPDCo licence requirements and timeline for STR units
- Confirm TRN registration process for Jamaican rental income
- Obtain contractor quote if survey reveals defects — use for price renegotiation
- Confirm planning pre-application position for any additional unit development on lot

This report is produced for investment evaluation purposes only and does not constitute legal, tax, mortgage, planning, or professional surveying advice. All financial projections are estimates and must be independently verified. Exchange rates used: 155 JMD/USD, 1.27 USD/GBP (~122 JMD/GBP). Instruct a qualified Jamaican attorney, chartered surveyor, and accountant before proceeding.
